EDUCATION

Jawaharlal Nehru Technological University Anantapur

Aug 2023 – May 2027

B.Tech Computer Science And Engineering

CGPA: 8.68/10

SR Junior College

July 2021 – June 2023

Board of Intermediate Education

Percentage: 98.3

EXPERIENCE

Full Stack Developer Intern -[Link]

May 2026–June 2026

QClairvoyance

Vijayawada, Medha Towers

- Developed the QClairEdu Learning Management System using HTML, CSS, JavaScript, and Python, implementing interactive learning features such as flashcards, and educational content management.
- Implemented a Retrieval-Augmented Generation (RAG) system using Python and LLMs to retrieve relevant educational content and provide context-aware answers to user queries based on the learning materials.
- Transformed educational content into interactive visual learning materials by converting key concepts into images and visual elements to improve content understanding and engagement.

PROJECTS

AI Anantapur Police Hackathon – Cyber Fraud Money Trail Intelligence System -[Link]

- Developed a cyber fraud money trail intelligence system that processes 100+ financial transactions from uploaded PDF reports, uses Python-based OCR to extract transaction and account information, identifies linked accounts across multiple transaction layers, and visualizes the complete money trail as an interactive graph.
- Implemented historical account tracking using MySQL to identify accounts that appear repeatedly across fraud cases and detect suspicious transaction patterns.
- **Tech Stack:** HTML, CSS, JavaScript, Python, Node.js, Express.js, MySQL, OCR.

JNTUA Digital Attendance System -[Link]

- Developed a web-based attendance system that automatically retrieves and processes student attendance data from the JNTUA portal and presents it through a simple, user-friendly dashboard.
- Implemented subject-wise and overall attendance tracking with detailed attendance records, percentage calculations, and insights on the number of classes a student needs to attend to reach 75% attendance and the number of classes they can skip while maintaining the required percentage.
- **Tech Stack:** Python, Flask, BeautifulSoup, HTML, CSS, JavaScript.

Railway Leave Management System -[Link]

- Developed a full-stack Railway Leave Management System for managing and maintaining leave records of 130+ employees across 12 railway stations, enabling manual entry, storage, tracking, and retrieval of employee leave information.
- Implemented employee and station management, leave history tracking, monthly leave calculations, real-time dashboard statistics, and employee-wise and station-wise reports to simplify day-to-day leave management.
- **Tech Stack:** HTML, CSS, JavaScript, Node.js, Express.js, MySQL.

TECHNICAL SKILLS

Languages: Java(OOP, DSA), Python(Basic)

Web Development: HTML, CSS, JavaScript, Node.js, MySQL

Technologies : Machine Learning

Tools: Git, GitHub, VS Code, Vercel, Render, XAMPP

ACHIEVEMENTS

- Winner – AI Anantapur Police Hackathon 2026 for developing a Cyber Fraud Money Trail Intelligence System.
- Achieved **Elite + Top 5%** in NPTEL Natural Language Processing (**IIT Kharagpur**), securing **78%** among 4,939 certified candidates.
- Maintained a 365+ day LeetCode streak in 2025 and solved 500+ coding problems.
